

THE BUCKSTEP™ 2.0

A TWO-PART BUCKSTEP™ SUSPENSION TRAUMA RELIEF SYSTEM

BuckStep™ 2.0 105RSDK1

The BuckStep™ 2.0 is a two-part BuckStep™ suspension trauma relief system designed to alleviate the effects of orthostatic intolerance, also known as suspension trauma. It can be used by either right-handed or left-handed users. This product allows a victim to immediately deploy a body support system that allows for improved blood circulation and the ability to move and flex muscles until rescue. The BuckStep™ 2.0 Suspension Trauma System is compact and easy to attach to a full body harness.

Features & Benefits:

- Two-part design allows for a more compact design and provides easier length adjustments compared to the one-part BuckStep™ system.
- New adjustment buckles located at harness for easier length adjustments and added strength.
- Girth hitches to the harness for easy attachment.
- The ring and connector design aids in connection of the two trauma straps.
- Small/compact pouches, just 4 ½" x 2" in size.
- Lightweight - 3.4 oz. (each), 6.8 oz. (pair).
